

**We are** an Innovative SharePoint Service provider enabling customers and partners realize their full business potential.

## SPECIALIZATIONS

- **Infrastructure** We will guide you through the process of hardware and capacity planning as well as performance tuning.
- **Installation, Setup, and Configuration** We will make sure that SharePoint is setup and configured with all the features necessary to meet the needs of your business.
- **Taxonomy and Governance** We will meet with your team, gather requirements and design a taxonomy and governance plan that ensures your site is manageable and maintainable.
- **Branding** We can configure SharePoint to comply with your corporate style standards as well as having a compelling look and feel. This includes color schemes, custom page layouts and site definitions.
- **Workflow** We will work with your team to build customized workflows that support your business processes.
- **Forms** We can create custom forms using InfoPath Form Services. These forms can be submitted from a web page, distributed via email or distributed to be completed offline.
- **Custom Development** We can create custom components to extend SharePoint capabilities to meet any business need.
- Troubleshooting, Support, Maintenance And Upgrade

## HOW OUR EXPERTISE CAN SUPPORT TO GROW YOUR BUSINESS

### How do you deliver productivity and efficiency?

When your work involves managing information, you probably rely on a number of key enterprise solutions to enable productive and effective working practices. These enterprise solutions might include portal solutions, search tools, collaboration platforms, and business intelligence features.

### Our services are offered in three broad categories:

- **SharePoint Training**
- **SharePoint consulting**
- **SharePoint development**

### A Strategic Value

#### Ease of Use

- ⇒ Provide simple, familiar, and consistent user interface experience.
- ⇒ Leverage existing investments.

#### Simplifying Everyday Business Activities

- ⇒ Workflow automation.
- ⇒ Report Center.
- ⇒ Team Collaboration & Activity Tracking.
- ⇒ Manage Content and Document easily.

#### Business Intelligence and decision making

- ⇒ Give users access to business data in common LOB systems like SAP and Siebel through OOB connectors.
- ⇒ Rapid creation of reporting dashboards.
